

BUMP - The all new AES XPRESS app!

Meet the MVP of your next volleyball tournament. AES Xpress puts a world of event details and helpful tips at your fingertips. Access event schedules, scores, court layouts, flowcharts, and nearby points of interest with a glance at your handheld device. Download the beta version of this powerful app in April 2010 – and give your team, coaches, and fans a winning advantage.

Streamlined – Virtually no scrolling or zooming, for quick viewing and easy navigation

Efficient – Simply the fastest way to view schedules and results

Accessible – Access court layouts and flow diagrams in seconds

Informative – Easily stay on top of changing event info and details

Convenient – Find points of interest near event venues with a glance (dining, lodging, shopping, entertainment, etc.)

Customized – Help us make AES Xpress even stronger – we want your input

Affordable – Just \$1.99 for the rest of this season. (iPhone (iPod touch & iPad), BlackBerry and Android phones.)

Available for iPhone/iPad

Available for ANDROID

Coming Soon for BLACKBERRY

SET - What our clients have to say!

AES stands for Advanced Event Systems but it should really stand for Awesome Excellent Service! I have had the pleasure of using AES tournament scheduling software for the last three years running the NASA Big Spring Volleyball Bash, a two-day tournament with 144 teams on 18 courts under one roof. While we are not a giant qualifier, teams expect lots of information fast – which AES empowers us to provide.

Tracy Smith
